Parasoul as Alana

Summary

First person POV one-shot. Umbrella is surprised to see that her sister has changed. Parasoul tells her it's for a cosplay event organized by Annie.

- A translation of [Parasoul en étant Alana](#) by [MiaQc](#)

I'm surprised when I see my big sister arrive. She's dyed her hair a dark brown. Her eyes are a glassy blue. She's wearing a white shirt, beige pants and brown shoes. She has the Black Egrets armband on her arm, but it's purple rather than red. She looks different. She's changed.

"Big sis, what's going on?"

"What do you think of my Alana cosplay?"

"Cosplay?"

"Did you forget? The cosplay event Annie organized."

"Oh..."

"I would have gone as Annie, but I'm sure many other people have the same idea, so I decided on Alana from 'The Girl From Tomorrow.' What do you think?"

I tell her that The Girl From Tomorrow is a baby show, just like Annie of the Stars. This angers her. Parasoul leaves. I didn't want to tell her, but her cosplay is cute. However, I tell Hungren. It'll be our secret.
